Ash-Wembdon Farm

Our Traditional Somerset Farmhouse offers a homely atmosphere and quality accommodation.

This working beef and arable farm is situated near the Quantock Hills and we have recently refurbished the farmhouse to ensure a high standard of comfort.

All of the bedrooms have been tastefully decorated and offer Double en-suite with shower or Twin with private bathroom, digital colour television, tea and coffee making facilities.

Guests have their own dining room in which a traditional hearty breakfast is served, or continental for those who prefer it.

There is a separate lounge for the guests if they wish to sit and read, and also a landscaped garden for those who wish to amble around.

Ash-Wembdon Farm offers an ideal base for exploring the Quantocks, Mendips and Polden Hills.

There is also the Somerset Coastline and the Sedgemoor Level which is one of the important wetland sites in Europe.

We have many traditional craft centres and local vineyards too. There are also many National Trust Properties waiting to be visited and a wide selection of museums.

For those who enjoy visiting gardens we have a National Gardens Scheme operating in the surrounding area, not to mention conservation, heritage and country house gardens.

We also have three eighteen hole golf courses to choose from in the vicinity.

For those who enjoy swimming there is a spectacular indoor leisure pool in Bridgwater and a twenty-five metre swimming pool at Burnham.

There are riding, sports, skiing and sailing centres too!

Not forgetting nearby Cheddar with its magnificent Gorge and caves. Also you can explore the cities of Wells, Bath and Bristol.

Please note Free Internet Wireless Broadband access is now available.
